affiliated to University of Mumbai

Outward:- KGRDCPDR/SL/52(A)/2016

Date: 02/08/2016

ACADEMIC YEAR 2016-17

POLICY NAME: Mechanism of identification of advanced and slow learners

RESPONSIBLE DEPARTMENT: Examination Department

APPROVAL AUTHORITY: Dr.Mohan Kale (Principal)

POLICY: All faculty members from Pharmaceutics, Pharmacology, Pharmacognosy, Pharmaceutical Chemistry & Allied subjects request for identification of advanced and slow learners from academic year 2016-17 for first year to final year.

PURPOSE: Based on the analysis the students who scored below 50 % are identified as slow learner and above 70 % are identified as advanced learners in internal examinations. This system is also implemented in the further analysis of students admitted in higher classes.

STRATEGIES ADOPTED FOR FACILITATING SLOW LEARNERS:

The institute has been following the orientation program jointly for all of the admitted students. But, during the orientation program specific emphasis is laid on identified slow learners by way of motivating them for actively participating into the various programs and methodologies the institute implements for them. During orientation & induction programs we enhance positive attitude and competitive spirit irrespective of slow and advanced learners. This process is significant in monitoring the future progress of the students and at the same time, the institute exhibits its commitment to develop the slow learners to tune up and match with the advanced learners.

Having clearly identified the slow learners, the institute goes ahead with remedial classes organized specifically for slow learners, clarifying doubts and re-explanation of critical topics for improving performance. The subject faculty takes specific initiative to ensure that the academic performance of slow learners slowly rise up for which they stay committed by way of number of sequential meetings with such students.
